The Official Publication of the Montgomery County Paralegal Association

#### **July 2019**

### PRESIDENT'S MESSAGE by Nancy Piechota, Pa. C.P.

appy Summer everyone! I hope everyone is enjoying summer so far. I wanted to take this time to remind members that we are looking to add some new Board members to our group due to some Board members who will not be returning to the Board because their terms are up. We have five spots open.

If any of you are sitting there and thinking about whether this is something you might be interested in, please reach out and I can answer any questions or concerns. When I thought about being a Board member, I was a little reluctant because I was shy and had never gotten involved much, but I decided to take the chance and run for a position on the Board. At my first meeting I just sat and listened to where the Association was hoping to go and where it had been over the past several years. I found it very interesting to see the behind-the-scenes activities. The Montgomery County Paralegal Association Officers are elected by the Board members. During the meeting, our President mentioned that MCPA was in need of a Marketing chairperson. Within 10 seconds of her announcing this, my hand went up in the air and I volunteered muself for the position. Most of the Board members could not believe that a new Board member at her first meeting raised her hand so quick for such a daunting job. However, I was very excited that I had raised my hand and that I would be helping out the Board and MCPA. At the end of the meeting, I got into my car to drive home and thought "what did I just do?"!! Well, that thought quickly left my head and on my long drive home, I thought of different ways I was going to make the Marketing Committee successful. When I told my family and friends, they were excited for me and very surprised because of how shy I am about trying new things and meeting new people. Everyone gave me words of encouragement and off I went into the world of marketing for Montgomery County Paralegal Association!

Believe me, there are many ways people can help. Every aspect of the Association is so important in making sure that our Association works and is successful.

Board meetings are held once a month on the first Thursday of each month. Meetings start at 6:00 p.m. and are usually done, considering how much business we have to attend to, by 7:00 or 7:30 p.m.

Not every Board member has to be an Officer. So, if you are thinking about just being a Board member, that would be wonderful. Please take the time to think about joining MCPA's Board. Giving an hour or two of your time once a month would help our Association and make a big difference. I know - I am certainly glad I did and I know you will be too.

#### NATIONWIDE LEADERS IN DOCUMENT RETRIEVAL

## CAUSES OF INADVERTENT DISCLOSURE OF PRIVILEGED DOCUMENTS AND STRATEGIES FOR <u>PROTECTING PRIVILEGED DOCUMENTS</u> FINAL PART OF A III PART SERIES

#### Damages to Client Cases, Workers, and Justice Institution

Privileged document leaking impacts the client, all staff in e-discovery, and the institution of justice.

## 1. Damages to client's cases, business and resources

Privilege document leaking is responsible for exposing confidential information, trade secrets, and privileged information. In the worst case, one single piece of leaked information can ruin the client case. Leaked damaging information can seriously injure the clients' future business, diminish its competitiveness, and invite chain lawsuits (when such information can be used by other parties in support of new suits). It is a huge waste for each of the great number of reviewers to repeat the same task.

#### 2. Stress on all staff in e-discovery

When document review products are in such unpredictable quality, none of workers in ediscovery can control their liabilities. None of them can have a good sleep because they have to count on good luck. The odds of coding errors run litigation course in unpredictable way. If I look at those court reports, I can find that disputes in privilege document leaking are frequent. When more and more litigants know the potential leaking, they would try to find leaked documents in received documents, and so more and more disputes will appear in future court reports. This creates a huge pressure on all workers in legal service delivery. Document reviewers, attorneys (associates and partners), and data

service providers are subject to malpractice lawsuits. They can only hope that bad things will not happen, but bad things do happen according to cumulative probabilities. This is one of the main reasons for the extremely poor health condition of legal professionals. Each year, the Bar's study found that a high percentage of lawyers use caffeine, alcohol, pain killers, and sedative drugs.

## 3. Compromising the mission of delivering justice

When document review products are in such poor quality, adjudication is meaningless. Case disposition is often not based upon case merit. Case disposition depends upon conflicting, confusing, meaningless documentary evidence. Now, human review products are worse than work products of computers that are able to do several simple things with an overall IQ of one digit. This low quality problem is discussed frequently in court opinions. Delivery of justice has been seriously compromised by such ediscovery practice.

## CAUSES OF INADVERTENT DISCLOSURE OF PRIVILEGED DOCUMENTS AND STRATEGIES FOR <u>PROTECTING PRIVILEGED DOCUMENTS</u> FINAL PART OF A III PART SERIES CONTINUED

#### How to Address Privileged Document Leaking Problems

In any legal dispute, the party has only one or limited final objective. The most important point is avoiding mistakes in factual understanding. It is necessary to empower document reviewers and attorneys to know the basic information that is expected of intended readers of corporate documents.

I have worked on this problem since 2000, as the only person who has recognized and studied this problem. My solution can solve following problems:

(1) Improving productivity by eliminating N-1 duplicate tasks;

(2) using a method that allows document reviewers to code documents by guessing but also has the ability to cull those guessing-coded documents in a reconciling review;

(3) reducing conflicting coding decisions as much as possible;

(4) improving coding performance to the extend that the coding will not harm the client; and

(5) providing the best capability of capturing sensitive information, trade secrets, and privileged information;

(6) avoiding time on performing tasks that can only hurt client interests;

(7) improving the team's ability to deal with routine changes; and

(8) helping all workers and reviewers gain peace of mind.
